

This list details the almshouses in Hertfordshire, both historic and existing. It includes some which were in Hertfordshire but may not be now due to boundary changes
 Entries highlighted in red in Town column denote buildings reported as being almshouses but are not, or almshouses wrongly ascribed to Hertfordshire
 Entries highlighted in green in Town column are alternative names for the same almshouse. See the cross reference in the Address column
 The amber highlighting is to make it easier to read across the page
 The column Status 2025 should not be taken as absolute. Some entries have had to be confirmed from local knowledge rather than documentation
 This version as at Aug 2025
